Here's Hore it Works: Here's Hore it Works: Software is a software of the software down into the software. To software audoks, the workset's through it must be software and box. Each rule audo the other is what it works software audoks in the software audok provided the boxes. The software software is the software audok provided the boxes. The more numbers of them, the easier's gets to some the puzzle. 1 10

Fun By The Numbers

Numbers Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square edi, so sharpen your pencil and put your sudoku sarvy to the ten

Step Two:

Fold the large square corner to corner so that it forms a right angle triangle.

Step Three:

Fold the corners of the triangle into the centre, forming a pentagon.

Step Four:

Fold down the top triangle shaped flaps, one on each side of the bag. This will create the top of the liner.

Step Five:

This will be the final shape you are left with. Open the liner that you've folded from the top edge.

Step Six:

Place your liner in your compost bin, and use it to collect your compostable materials indoors!
